Dear Parents and Families,

I am writing to provide an update on our new transportable building, T5. We have received notification that ground works will begin on Monday the 30th of March. This will result in parking bays being sectioned off next week near the Early Childhood area on Dugan Street. Please be prepared to park in an alternate area if you normally park on Dugan Street.

The transportable is scheduled to be delivered and connected during the school holidays. We will provide an update via text message to parents of students in T5 and Room 1 regarding a moving date for these classes, but we are hopeful that this will occur early in Term 2.

If you have any questions or concerns, please contact me.

Kind Regards,

Ash Ferguson

Principal
