Dear parent/carer,

The Primary Extension Challenge (PEAC) program is for students in Years 5 and 6 who like extra challenges at school.

Students in the PEAC program work on new ideas, think in different ways, and learn with other students like them.

The PEAC test
Primary and Extension Challenge (PEAC) is a test for Year 4 students in Western Australian public schools. All Year 4 students will do the PEAC test.

How the test is used
We use this test to:

- choose students for the PEAC program
- help teachers support your child's learning.

About the test
The test has 50 questions.

Each question has a list of a few possible answers. Your child will choose the correct answer from a list.

The test has 2 parts:

- verbal reasoning, which is thinking with words
- mathematical reasoning, which is thinking with numbers.

The PEAC Test at KPS will be held at 11.20am on Tuesday August 4th. If your child is sick and cannot come to school to do the test, contact the school by the end of the day they are sick. We may be able to arrange another test.

Choose not to do the test
If you don't want your child to do the PEAC test, please contact the school by Friday July 31st to let us know.

What happens after the test
If your child is chosen for PEAC, the school will contact you.

If you have any questions, please contact Kim Reghenzani on 9068 2100.

Yours sincerely,
Kim Reghenzani
Deputy Principal

Kalgoorlie Primary School
